

IT Staffing: Leverage Silver Tree's Curated EcoSystem

Trouble meeting project deadlines with limited resources?

In our experience, most IT departments don't have the budget to hire full time nor have adequate resources available to find the right people for the job.

Silver Tree helps its clients with project management and execution and/or helps them find the right skill set needed for their particular requirements – short-term, long-term or permanent.

**Access The Best Talent through Silver Tree's Ecosystem:
400 Consultants, 12.5K Service Providers**

Silver Tree's Resource Approach

- Develop or fine-tune a job description that gets found and is noticed
- Create a comprehensive list of client requirements
- Qualified candidates are screened by Silver Tree's Recruiter, Practice Lead and Account Executive
- Carefully curated candidates are then presented to client
- Silver Tree coordinates and manages all interviews with client
- Once candidate is selected, Silver Tree finalizes the hiring process

Outcome

Silver Tree maintains an ongoing relationship with both the assigned consultant and customer to ensure full satisfaction by the client and validate that consultant is providing best value.
